

## Environmental Policy

Alan Butcher Components recognises the need to minimise our impact on the environment and prevent pollution. We seek to continually improve our business processes and use the following objectives to help achieve this:

- Abide by environmental legislation and regulations and continually review to ensure we are meeting requirements and best practices.
- Minimise our energy consumption and use of materials.
- Recycle where possible rather than throw things away.
- Reduce waste and ensure it is disposed of in the correct manner and in accordance with legislation.
- Work with environmentally responsible suppliers.
- Engage with employees to help increase participation in our environmental objectives.
